Our philosophy

At MIP, we believe in quality of life without compromise and that even the smallest improvements can hold the greatest importance.

When it comes to health, no detail is too small because we understand that the way a person feels can dictate the way in which they heal and that healthcare is about more than operations and prescriptions, it's also about providing dignity and compassion.

As a global supplier of comfort and efficiency, we strive to enable a healthcare industry focused on caregiving and for every product to be designed with people in mind.

MIP. The softer side of healthcare.

A little bit about us...

MIP UK Ltd. was founded in 1992. We've been building our business and our customers' businesses for more than 30 years.

With Business Units in Canada, UK, Germany and the United States, as well as warehouses located across North America and Europe, we make sure our clients receive the products they need, where and when they need them.

LEARNING HUB

By MIP

With over 40 years experience, MIP are experts in our field and by partnering with industry clinicians, we have developed the Learning Hub to provide a range of digital education and training tools to support knowledge and learning in healthcare textiles.

Swift® In-Bed Repositioning System

UltraSlide® Bottom Sheets

[Learn More](#)

Information:

The MIP Swift® In-Bed Repositioning System is a cost-effective, low friction repositioning system. The UltraSlide® Bottom Sheet is designed with an integrated low-friction panel down the centre and can be used in conjunction with the Swift® Sliders for repositioning patients/residents, and stays on the bed when not in use.

Washing Instructions:

Product Code	Description	Colour
PTD-LS/S/UK	Standard	White/Blue
PTD-LS/BA1/Y/UK	Bariatric	White/Blue

Swift® In-Bed Repositioning System

Swift® Sliders

[Learn More](#)

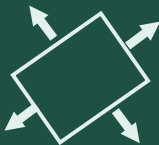

Information:

The MIP Swift® In-Bed Repositioning System is a cost-effective, low friction repositioning system. The Swift® Slider is a friction reducing device that works in conjunction with the UltraSlide® Bottom Sheet for repositioning patients/residents. It stays on the bed when not in use (tucked in), making it readily available when needed.

Washing Instructions:

Product Code	Description	Dimensions
PTD-56/BA/Y/UK	Standard	123 × 186cm

PTD-56/BA/H/UK	With Handles	200 × 243cm

Moving & Handling

Evacuation Sheet

[Learn More](#)

Information:

The Evacuation Sheet has been designed to remain underneath the mattress, ready for rapid evacuation of patients or residents. In an emergency, it wraps around the patient, cocooning them within the mattress, to form a protective sledge.

Washing Instructions:

Product Code	Description	Dimensions
CS653-0001	Evacuation Sheet	185 × 85cm

Cromptons Healthcare Accessories

Slide Sheet Glove

[Learn More](#)

Information:

Cromptons Healthcare by MIP Slide Sheet Glove is made from the same material as our popular slide sheets and is suitable in a number of applications:

- Ideal to support small turning and positioning tasks
- To support skin smoothing when repositioning on profiling beds
- Clothes dressing aid
- Sling fitting can be made easier

The MIP Slide Sheet Glove should not be laundered, see instructions for more information.

Product Code	Description	Dimensions
CS555-0001	Slide Sheet Glove	50 × 20cm

Cromptons Healthcare Accessories Extension Handle

[Learn More](#)

Information:

Cromptons Healthcare by MIP
Extension Handle - Loop the webbing strap through the Slide Sheet handle to extend it and avoid staff adopting an incorrect posture by over reaching.

For use with Flat Slide Sheets (with handles) and JC100 Transfer Sheets.

Product Code	Description	Size
BP005-0003	Extension Handle	90cm

Cromptons Healthcare Accessories

Slide Sheet Storage Bag

[Learn More](#)

Information:

Cromptons Healthcare by MIP
Slide Sheet Storage Bag - Record
resident/patients name and ward
and attach the drawstring bag to
the patient's bed so the slide sheet
is always available.

The Slide Sheet Storage Bag should
not be laundered, see instructions
for more information.

Bed Rail Protectors

[Learn More](#)

Information:

Our durable, foam filled pair of bed rail protectors are designed to be fixed in place to protect residents. The simple wipe clean, fluid proof surface, with hook & loop fastenings ensures ease of attachment and maintenance. All of our bed rail protectors have been specifically designed for use on healthcare beds, including profiling beds. Flame Retardant to British Standard BS 7177.

Product Code	Description	Dimensions
135/W/PU	Standard Length	86 × 137 × 2cm
136/W/PU	Full Length	86 × 198 × 2cm

Bed Accessories

Connected Bed Rail Protectors

[Learn More](#)

Information:

Full length bed rail protectors designed for use on profiling beds with rails that drop down. Our bed rail protectors which come as a pair are connected with a mesh base that sits under the mattress. This helps secure the bed rail protectors in place and forms a safety net to help prevent entrapment between the mattress and the bottom of the side rails/bed rail protectors. The split mesh base ensures these bed rail protectors are ideal for use with profiling beds, and if required can be fitted under the base of the bed.

Flame Retardant to British Standard BS 7177.

Product Code	Description	Dimensions
143/W/PU	Standard Length	87 × 198 × 2cm

Bed Accessories

Mesh Bed Rail Protectors

[Learn More](#)

Information:

Full length bed rail protection with mesh inserts improve visibility between each side rail to reduce the feeling of entrapment. These bed rail protectors come as a pair and are specifically designed for use with rails that drop down and profiling beds. Featuring Foam filled with a simple wipe clean, fluid proof surface and zip fastenings. Flame Retardant to British Standard BS 7177.

Product Code	Description	Dimensions
144/W/PU	Two Bar Mesh	86 × 201 × 2cm

Bed Accessories

Side Wedges with Connecting Sheet

[Learn More](#)

Information:

Our high density foam filled pair of side wedges with a breathable connecting sheet are designed to prevent residents from falling out of beds with no rails. The side wedges are attached to the connecting sheet using a large hook and loop strip, which is then attached underneath the bed using durable straps and quick release clips. Flame Retardant to British Standard BS 7177.

Product Code	Description	Size
138/W/PU	Side Wedges with Sheet	20 × 90cm
137/W/PU	Connecting Sheet	90 × 90cm

Bed Accessories

Multi-Purpose Bed Wedge

[Learn More](#)

Information:

Our high density foam filled Multi-Purpose Bed Wedge is a comfortable, versatile positioning aid. It can be used upright or horizontally to encourage a healthy postural position when sitting or reclining in bed or alternatively it can be used for leg support. Further positioning options can be created using two bed wedges. The easy care cover can simply be wiped clean. Flame Retardant to British Standard BS 7177.

Product Code	Description	Dimensions
141/W/PU	Bed Wedge	60 × 24 × 57cm

Bed Accessories

Fall-Out Mat

[Learn More](#)

Information:

Our high density foam filled fall-out mats are designed for use with low level beds to ensure that patients do not injure themselves if they were to fall out of a bed with no rails. Made with a blue PVC, wipe clean material the fall-out mat is very easy to store and maintain and comes complete with durable carry straps. Flame Retardant to British Standard BS 7177.

Product Code	Description	Dimensions
139/W/PU	Fall-Out Mat	60 × 190 × 5cm

Bed Accessories

Static Mattress Extension Infill

[Learn More](#)

Information:

Our static mattress length extension fills the gap often left at the foot of extended profiling beds, enhancing comfort for taller residents. The high density foam is finished with a durable wipe clean PVC cover and is designed to be simply wiped clean. It is Flame Retardant to British Standard BS 7177.

Laundry Bags

Safetex™ Self-Opening Laundry Bags

[Learn More](#)

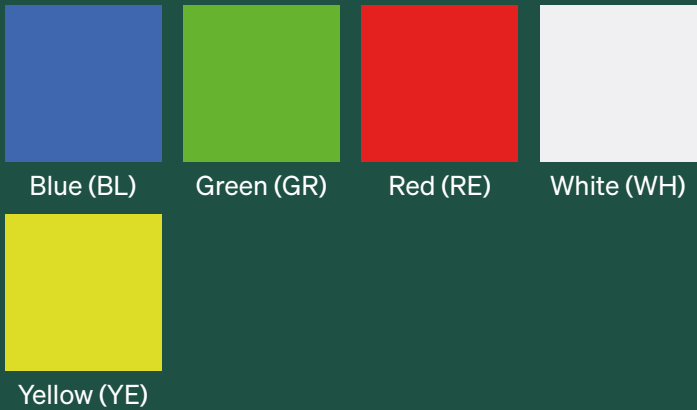

Information:

Safetex™ is a re-usable, self opening PVC laundry bag, designed for the collection of heavily soiled and infected linen. Safetex™ has unique welded seams to ensure the bag is fluid and odour proof. Once the Safetex™ bag is safely inside the washing machine the bag naturally opens. The natural opening minimises manipulation of the bag and prevents staff exposure to the infectious linen prior to decontamination as per 5.31 of the Dept of Health CFPP, Decontamination of Linen for Health and Social Care: Management and Provision document.

Safetex™ bags are environmentally friendly and a cost-effective alternative to single use disposable red bags, with a lifespan that can withstand multiple processings.

Washing Instructions:

Product Code	Description	Size
LB/SO/SL/B/UK	Blue Safetex™ Bag	60 × 75cm
LB/SO/SL/G/UK	Green Safetex™ Bag	60 × 75cm
